SUBJECTS

Abducens palsy

- Management of abducens palsy in patients with petrositis, 897

Abductor spasmodic dysphonia

- Laryngeal long latency response conditioning in abductor spasmodic dysphonia, 612

Abscess

- Prospective application of protocol for selective nonsurgical management of suspected orbital subperiosteal abscesses in children, 459
- Sinusitis with contiguous abscess involvement of clivus and petrous apices. Case report, 463

Acknowledgment of reviewers, 420**Acquired immunodeficiency syndrome**

- AIDS-related plasmablastic lymphomas of oral cavity and jaws: diagnostic dilemma, 95
- Laryngeal pathology in acquired immunodeficiency syndrome: diagnostic and therapeutic dilemmas, 214
- Rare cause of blindness in patient with acquired immunodeficiency syndrome, 711

Adductor activity

- Effect of intravenous substance P on laryngeal adductor activity in young dogs, 112

Adenoid

- Radiographic evaluation of children with nasopharyngeal obstruction due to adenoid, 67

Adhesion molecule

- Expression of intercellular adhesion molecule-1 in rat inner ear due to bacterial otitis media, 648

Aging

- Comparison of upper esophageal sphincter opening in healthy asymptomatic young and elderly volunteers, 982
- Distribution of psammoma bodies in internal auditory canal and its extended areas in human temporal bone, 963

Airflow

- Effect of thyroplasty on laryngeal airflow, 286

Air pressure

- Inner ear damage in TORP-operated ears: experimental study on danger from environmental air pressure changes, 745

Airway

- Pediatric tracheostomy: changing procedure? 695
- Utility of radiographs in evaluation of pediatric upper airway obstruction, 378

Allergy

- Comparative role of peptide leukotrienes and histamine in development of nasal mucosal swelling in nasal allergy, 467
- Decrease of serum levels of soluble CD23 during immunotherapy in patients with perennial allergic rhinitis, 193
- Distribution of RANTES and interleukin-5 in allergic nasal mucosa and nasal polyps, 594
- Effect of diesel exhaust on guinea pig nasal mucosa, 582
- Efficacy of antiallergic drug on otitis media with effusion in association with allergic rhinitis. Experimental study, 554
- Expression of NPY Y₁ and CGRP₁ receptors in human nasal mucosa: implications in allergic rhinitis, 969
- Laser surgery for allergic and hypertrophic rhinitis, suppl 180
- Nasal nitric oxide does not control basal nasal patency or acute congestion following allergen challenge in allergic rhinitis, 368

- Specific immunoglobulin E, interleukin-4, and soluble vascular cell adhesion molecule-1 in sera in patients with seasonal allergic rhinitis, 169

Aneurysm

- Microbial extracranial aneurysm of internal carotid artery: complication of cervical lymphadenitis, 314

Ankle-arm index

- Ankle-arm index as screening examination for fibula free tissue transfer, 777

Anomalies

- Cervical vertebral anomalies in patients with anomalies of head and neck, 925

Antibiotics

- Antibiotics in chronic suppurative otitis media: bacteriologic study, 440
- Documentation of prevalence of penicillin-resistant *Streptococcus pneumoniae* isolated from middle ear and sinus fluid of children undergoing tympanocentesis or sinus lavage, 629
- Resistance to antimicrobials used for therapy of otitis media and sinusitis: effect of previous antimicrobial therapy and smoking, 645

Apnea

- Effect of sleep state on laryngeal chemoreflex in neonatal piglets, 309

Apoptosis

- Flow cytometric analysis of BHRF1 expression prohibiting apoptosis induced by radiation, 481

Approach

- Transverse infrahyoid approach to bilateral glottic tumors, 24

Artery

- Carotid artery occlusion due to bacterial paranasal sinusitis, 87
- Diagnostic and therapeutic management of bilateral carotid artery occlusion caused by near-suicidal hanging, 189
- Spontaneous vertebral artery dissection mimicking acute vertigo. Case report, 1170

Artificial intelligence

- Discovering diagnostic rules from neurologic database with genetic algorithms, 948

Arytenoid

- Anatomic study for posterior medialization thyroplasty, 373

Aspergillosis

- Successful treatment of invasive aspergillosis of skull base and paranasal sinuses with liposomal amphotericin B and itraconazole, 205

Asthma

- Endoscopic sinus surgery improves pulmonary function in patients with asthma associated with chronic sinusitis, 355

Astrocyte

- Astrocyte reaction in rat vestibular nuclei after unilateral removal of Scarpa's ganglion, 181

Asymmetry

- Do cochlear nuclei contribute to auditory lateralization? Stereological evaluation of neuron numbers, 661

Atelectasis

- Developmental changes in antrum of child with chronic maxillary atelectasis, 1091

- Auditory electrophysiology**
Outcome of brain stem auditory electrophysiology in children who survive purulent meningitis, 429
- Auditory pathway**
Integrity of auditory pathway in young children with congenital and postmeningitic deafness, 327
- Autoimmune hearing loss**
Murine model of autoimmune hearing loss induced by myelin protein P0, 255
T cells infiltrating from systemic circulation proliferate in endolymphatic sac, 1146
- Autotransplantation**
Autotransplantation of trachea: experimental evaluation of reconstructive technique for extended hemilaryngectomy defects, 143
- Bacteria**
Antibiotics in chronic suppurative otitis media: bacteriologic study, 440
Documentation of prevalence of penicillin-resistant *Streptococcus pneumoniae* isolated from middle ear and sinus fluid of children undergoing tympanocentesis or sinus lavage, 629
Immune response to *Fusobacterium nucleatum* and *Prevotella intermedia* in patients with chronic maxillary sinusitis, 293
- Benign tumors**
Results of partial laryngectomy for benign neural tumors of larynx in children, 666
- Blast injury**
Multifocal cholesteatoma of external auditory canal following blast injury, 269
- Blindness**
Rare cause of blindness in patient with acquired immunodeficiency syndrome, 711
- Blowout fracture**
Orbital blowout fracture with persistent mobility deficit due to fibrosis of inferior rectus muscle and perimuscular tissue, 1174
- Bone**
Effect of pharmacological sympathectomy on osteoclastic activity in gerbilline auditory bulla in vivo, 1078
- Bone conductor**
Percutaneous implants in temporal bone for securing bone conductor: surgical methods and results, 532
- Book Reviews**

 - The CLARION® Multi-Strategy™ Cochlear Implant, 8
 - The effect of long-term deafness on speech recognition in postlingually deafened adult CLARION® cochlear implant users, 80
 - Using CLARION® cochlear implant in cochlear ossification, 31
 - Using electrically evoked auditory reflex thresholds to fit CLARION® cochlear implant, 64
- Clinicopathological Consultation
 - AIDS-related plasmablastic lymphomas of oral cavity and jaws: diagnostic dilemma, 95
 - Laryngeal pathology in acquired immunodeficiency syndrome: diagnostic and therapeutic dilemmas, 214
 - Micrometastases: have they impact on prognosis? 1185
 - Papillary squamous cell carcinoma versus verrucous squamous cell carcinoma of head and neck, 318
 - Review of sinus histiocytosis with massive lymphadenopathy (Rosai-Dorfman disease) of head and neck, 1095
 - Sinonasal malignant lymphomas: distinct clinicopathological category, 411
- Clivus
 - Sinusitis with contiguous abscess involvement of clivus and petrous apices. Case report, 463
- Cochlea
 - Cochlear function of guinea pigs with experimental chronic renal failure, 955
- Cochlear implant
 - Ability of Nucleus cochlear implantees to recognize music, 634
 - Clinical results with CLARION® Multi-Strategy™ Cochlear Implant, suppl 177
 - Intracochlear schwannoma and cochlear implantation, 659
- Collagen
 - Correcting vocal fold immobility by autologous collagen injection for voice rehabilitation. Short-term study, 788
- Combined immunodeficiency
 - Severe combined immunodeficiency: otolaryngological presentation and management, 403
- Complications
 - Complications of pediatric laryngotracheal reconstruction: prevention strategies, 1019
 - Management of persistent tracheocutaneous fistula in pediatric age group, 880
 - Maturation of pediatric tracheostomy stoma: effect on complications, 1115
 - Prevention of airway complications in thyroplasty patients requiring endotracheal intubation, 735
 - Smoking increases facial skin flap complications, 139
- Compression
 - Progressive sensorineural hearing impairment in professional fishery divers, 1165
- Computed tomography
 - Computed tomography diagnosis of esophageal bone impaction: prospective study, 708
 - Subglottic stenosis: correlation between computed tomography and bronchoscopy, 837
- Congenital subglottic stenosis
 - Histopathology of congenital subglottic stenosis, 101
- Congenital tumor
 - Congenital nasal hemangiopericytoma: intrauterine, intraoperative, and histologic findings, 589
- Corticosteroids
 - Histomorphometric and laryngeal videostroboscopic analysis of effects of corticosteroids on microflap healing in dog larynx, 119
 - Local corticosteroid treatment of caustic injuries of esophagus. Preliminary report, 1088
- Cricopharyngeus muscle

- Motor innervation of human cricopharyngeus muscle, 1132
- Cricothyroid subluxation**
Cricothyroid subluxation: new innovation for enhancing voice with laryngoplastic phonosurgery, 1126
- Cyst**
Thoracic duct cyst: case report and review of 29 cases, 505
- Cystic fibrosis**
Abnormal expression of cystic fibrosis transmembrane regulator in chronic sinusitis in cystic fibrosis and non-cystic fibrosis patients, 576
- Cytokine**
Course of IL-1 β , IL-6, IL-8, and TNF- α in middle ear fluid of guinea pig otitis media model induced by nonviable *Haemophilus influenzae*, 559
- Deafness**
Integrity of auditory pathway in young children with congenital and postmeningitic deafness, 327
- Debulking**
Carbon dioxide laser debulking for obstructing endolaryngeal carcinoma: 10-year experience, 490
- Delayed reinnervation**
Comparison of nerve banking techniques in delayed laryngeal reinnervation, 689
- Development**
Comparison of perinatal and adult multi-innervation in human laryngeal muscle fibers, 683
Postnatal development of myosin heavy chain isoforms in rat laryngeal muscles, 509
- Diagnosis**
Discovering diagnostic rules from neurotologic database with genetic algorithms, 948
- Diesel exhaust**
Effect of diesel exhaust on guinea pig nasal mucosa, 582
- DiGeorge syndrome**
Inflammatory response to chronic otitis media in DiGeorge syndrome: case study using immunohistochemistry on archival temporal bone sections, 756
- Dissection**
Spontaneous vertebral artery dissection mimicking acute vertigo. Case report, 1170
- Distant metastasis**
Distant lymphatic metastasis from head and neck cancer, 860
- Diverticulum**
Endoscopic diverticulotomy for treatment of Zenker's diverticulum: results in 102 patients with staple-assisted endoscopy, 810
- Diving**
Progressive sensorineural hearing impairment in professional fishery divers, 1165
- Drugs**
Diagnosis and treatment of acute otitis externa. Interdisciplinary update, suppl 176
Efficacy of antiallergic drug on otitis media with effusion in association with allergic rhinitis. Experimental study, 554
Successful treatment of invasive aspergillosis of skull base and paranasal sinuses with liposomal amphotericin B and itraconazole, 205
- Duct**
Thoracic duct cyst: case report and review of 29 cases, 505
- Dysphagia**
Laryngopharyngeal sensory discrimination testing and laryngeal adductor reflex, 725
Swallowing disorders in paralysis of lower cranial nerves: functional analysis, 606
The "sign of the rising tide" during swallowing fiberoscopy: specific manifestation of Zenker's diverticulum, 296
- Dysphonia**
Correcting vocal fold immobility by autologous collagen injection for voice rehabilitation. Short-term study, 788
- Ectasia**
Ectasias and varices of vocal fold: clearing striking zone, 10
- Edema**
Electron microscopic and immunohistochemical investigation of Reinke's edema, 1068
- Editorial**
What is "spontaneous" cerebrospinal fluid rhinorrhea? Classification of cerebrospinal fluid leaks, 323
- Education**
Education in laryngology: rising to old challenges, 1046
The otolaryngologist as role model, 1042
- Electroneurography**
Twenty-four-hour oscillations of facial electroneurography parameters and their relationship to body temperature, 446
- EndNote**, 913
- Endolaryngeal carcinoma**
Carbon dioxide laser debulking for obstructing endolaryngeal carcinoma: 10-year experience, 490
- Endolymph**
T cells infiltrating from systemic circulation proliferate in endolymphatic sac, 1146
- Endoscopy**
Endoscopic management of lateral pharyngeal pouch, 408
Endoscopic middle ear surgery, 39
Endoscopic sinus surgery improves pulmonary function in patients with asthma associated with chronic sinusitis, 355
Otoendoscopy for improved pediatric cholesteatoma removal, 893
Transnasal endoscopic removal of orbital cavernoma, 147
Virtual laryngoscopy, 221
- Enlargement**
Unilateral tonsillar enlargement and tonsillar lymphoma in children, 876
- Epinephrine**
Effects of epinephrine on ouabain-sensitive, K⁺-dependent *p*-nitrophenylphosphatase activity in strial marginal cells of guinea pigs, 345
- Epithelium**
Delayed irradiation effects on nasal epithelium in patients with nasopharyngeal carcinoma. Ultrastructural study, 474
Immortalization of chinchilla middle ear epithelial cells by adenovirus 12-simian virus 40 hybrid virus, 934
- Epstein-Barr virus**
Expression of Epstein-Barr virus latent membrane proteins leads to changes in keratinocyte cell adhesion, 851
- Esophagus**
Comparison of upper esophageal sphincter opening in healthy asymptomatic young and elderly volunteers, 982
Computed tomography diagnosis of esophageal bone impaction: prospective study, 708

- Esophageal contractility synchronous with expiration, 806
- Local corticosteroid treatment of caustic injuries of esophagus. Preliminary report, 1088
- Ten-year experience with cervical miniesophagostomy, 1111
- Eustachian tube**
 - Effect of platelet activating factor and its antagonist on mucociliary clearance of eustachian tube in guinea pigs, 453
 - Patulous eustachian tube in long-term survivors of nasopharyngeal carcinoma, 201
 - Rat eustachian tube and its musculature, 277
- Evoked otoacoustic emissions**
 - Auditory screening in neonates by means of transient evoked otoacoustic emissions: report of 2,842 recordings, 525
 - Clinical applications of transiently evoked otoacoustic emissions in pediatric population, 132
- Exposure**
 - Analysis of forces and position required for direct laryngoscopic exposure of anterior vocal folds, 715
- External auditory canal**
 - Multifocal cholesteatoma of external auditory canal following blast injury, 269
- Extracellular matrix**
 - Immunohistochemical distribution of extracellular matrix components and keratin in experimentally induced otitis media, 769
- Extramedullary solitary plasmacytoma**
 - Extramedullary solitary plasmacytoma of head and neck. Clinicopathological study, 495
- Eye**
 - Prospective application of protocol for selective nonsurgical management of suspected orbital subperiosteal abscesses in children, 459
- Face**
 - Objective evaluation of normal facial function, 641
- Facial electroneurography**
 - Twenty-four-hour oscillations of facial electroneurography parameters and their relationship to body temperature, 446
- Facial motor neurons**
 - Coexpression of neurotrophic growth factors and their receptors in human facial motor neurons, 903
- Facial nerve**
 - Three-dimensional quantification of "still" points during normal facial movement, 265
- Fat**
 - Fat implantation into Reinke's space: histologic and stroboscopic study in canine, 738
- FDG PET**
 - FDG PET imaging of malignant paraganglioma of neck, 909
- Fibrous dysplasia**
 - Isolated unilateral fibrous dysplasia of sphenoid sinus, 1181
- Fistula**
 - Clinical presentation and management of labyrinthine fistula caused by chronic otitis media, 435
 - Management of persistent tracheocutaneous fistula in pediatric age group, 880
- Flap**
 - Ankle-arm index as screening examination for fibula free tissue transfer, 777
 - Severe pharyngeal stenosis treated with inferiorly based sternocleidomastoid myocutaneous flap, 731
- Flow cytometric analysis**
 - Flow cytometric analysis of BHRF1 expression prohibiting apoptosis induced by radiation, 481
- Fluorescence**
 - Fluorescence-guided biopsy in diagnosis of unknown primary cancer in patients with metastatic cervical lymph nodes, 700
- Foreign body**
 - Computed tomography diagnosis of esophageal bone impaction: prospective study, 708
 - Diagnostic and therapeutic approach to migrating foreign bodies, 177
- Free radicals**
 - Lipid peroxides in middle ear fluid after acute otitis media in guinea pigs, 564
- Frontoethmoid osteoma, 522**
- Gas**
 - Mastoid buffering properties: I. Gas partial pressures, 750
- Gene**
 - Mucin gene expression in rat middle ear: improved method for RNA harvest, 762
- Genetic algorithms**
 - Discovering diagnostic rules from neurotologic database with genetic algorithms, 948
- Germinal center**
 - Quantitative study of germinal center area in normal and diseased tonsils using image analysis, 398
- Gianturco stent**
 - Palliative treatment for tracheal stenoses using carbon dioxide laser and Gianturco stent. Long-term results, 842
- Gland**
 - High-resolution magnetic resonance imaging of recurrent pneumoparotitis, 816
 - Localization of zinc in rat submandibular gland and effect of its deficiency on salivary secretion, 300
- Glandular carcinoma**
 - Glandular carcinoma of larynx: UCLA experience, 485
- Glottiscope**
 - Universal modular glottiscope system: evolution of century of design and technique for direct laryngoscopy, suppl 179
- Glycohistochemistry**
 - Quantitative glycohistochemical characterization of normal nasal mucosa, and of single as opposed to massive nasal polyps, 797
- Goiter**
 - Substernal goiter: clinical experience of 72 cases, 501
- Gradenigo's syndrome**
 - Management of abducens palsy in patients with petrositis, 897
- Graft**
 - Graft healing in laryngotracheal reconstruction: experimental rabbit model, 599
- Granuloma**
 - Ablation of Teflon granulomas in canine larynx with free-electron laser, 17
- Growth**
 - Morphology of human larynx during first five years of life studied on whole organ serial sections, 232
- Guanethidine sulfate**

- Effect of pharmacological sympathectomy on osteoclastic activity in gerbilline auditory bulla in vivo, 1078
- Guided tissue generation
- Guided tissue generation in temporal bone, 349
- Hanging**
- Diagnostic and therapeutic management of bilateral carotid artery occlusion caused by near-suicidal hanging, 189
- Healing**
- Graft healing in laryngotracheal reconstruction: experimental rabbit model, 599
 - Histomorphometric and laryngeal videostroboscopic analysis of effects of corticosteroids on microflap healing in dog larynx, 119
- Hearing**
- Auditory screening in neonates by means of transient evoked otoacoustic emissions: report of 2,842 recordings, 525
- Hearing loss**

 - The "sign of the rising tide" during swallowing fiberoptic: specific manifestation of Zenker's diverticulum, 296
- Systemic lupus erythematosus
 - Study of systemic lupus erythematosus in temporal bones, 338
- Teflon
 - Ablation of Teflon granulomas in canine larynx with free-electron laser, 17

- Telescopic video
Telescopic video microlaryngeal surgery, 165
- Temperature
Twenty-four-hour oscillations of facial electroneurography parameters and their relationship to body temperature, 446
- Temporal bone
Application of labeling techniques to archival temporal bone sections, 47
Guided tissue generation in temporal bone, 349
Study of systemic lupus erythematosus in temporal bones, 338
- Temporomandibular disorders
Otalgia and aversive symptoms in temporomandibular disorders, 884
- Thoracic duct
Thoracic duct cyst: case report and review of 29 cases, 505
- Thyroid
Substernal goiter: clinical experience of 72 cases, 501
- Thyroplasty
Anatomic study for posterior medialization thyroplasty, 373
Effect of thyroplasty on laryngeal airflow, 286
Pediatric type I thyroplasty: evolving procedure, 1105
Prevention of airway complications in thyroplasty patients requiring endotracheal intubation, 735
- Thyrotomy
Experimental approaches to vocal fold alteration: introduction to minithyrotomy, 1
- Tissue generation
Guided tissue generation in temporal bone, 349
- Tissue perfusion
Effect of carbogen inhalation on peripheral tissue perfusion and oxygenation in patients suffering from sudden hearing loss, 944
- Titanium
Titanium vocal fold medializing implant: introducing novel implant system for external vocal fold medialization, 79
- Tonsil
Quantitative study of germinal center area in normal and diseased tonsils using image analysis, 398
Unilateral tonsillar enlargement and tonsillar lymphoma in children, 876
- Total ossicular replacement prosthesis
Inner ear damage in TORP-operated ears: experimental study on danger from environmental air pressure changes, 745
- Trachea
Autotransplantation of trachea: experimental evaluation of reconstructive technique for extended hemilaryngectomy defects, 143
- Tracheocutaneous fistula
Management of persistent tracheocutaneous fistula in pediatric age group, 880
- Tracheostomy
Maturation of pediatric tracheostomy stoma: effect on complications, 1115
Pediatric tracheostomy: changing procedure? 695
Percutaneous tracheostomy: comprehensive evaluation, 384
- Transiently evoked otoacoustic emissions
Auditory screening in neonates by means of transient evoked otoacoustic emissions: report of 2,842 recordings, 525
Clinical applications of transiently evoked otoacoustic emissions in pediatric population, 132
- Transmembrane regulator
Abnormal expression of cystic fibrosis transmembrane regulator in chronic sinusitis in cystic fibrosis and non-cystic fibrosis patients, 576
- Transmitters
Neurotransmitters and neuromodulators involved in laryngeal innervation, suppl 178:3
- Transverse infrahyoid approach
Transverse infrahyoid approach to bilateral glottic tumors, 24
- Trauma
Vasomotor rhinitis following trauma to nose, 208
- Tullio phenomenon
Relationship of utricle and saccule to stapes footplate: anatomic implications for sound- and/or pressure-induced otolith activation, 548
